

**EXHIBITION  
Anselm Kiefer.  
Le Alchimiste**

**TUESDAY MAY 5 2026**

**Anselm Kiefer and his Alchemists:  
the artist pays tribute to (and immortalizes)  
the women forgotten by science.**

**Kiefer's tribute to the unknown female alchemists of every era:**

women who, from the Middle Ages to the early modern period, worked on the fringes of official culture. Despite their decisive contribution to the birth of scientific thought, they never received full recognition.

Their history - suspended between knowledge and suspicion, rigor and persecution - becomes living matter in the German artist's painting.

Conceived as inseparable parts of a single installation, the paintings command attention through their sheer physicality: female faces and bodies that seem to emerge from the rubble.

**The Sala delle Cariatidi becomes an ideal resonance chamber—a space where the violence of history and the resilience of the feminine are mirrored and amplified.**

**PROGRAM**

- ORE 09:00 - Departure from Ispra
- ORE 10:30 - Guided tour of the exhibition
- ORE 13:30 - Free time
- ORE 15:30 - Departure for Ispra
