Truffle Hunt

Together with Gianluca our **Trifulau**
(in Piedmontese dialect the truffle hunter)
and **Maya** (often the name of the faithful truffle dog)
we go into the truffle woods.

The activity consists of an educational part that tells some of the secrets of the truffle: its biology and the environment in which it is born and grows, the practice of hunting going from traditional methods to dog training techniques; but also some anecdotes, the history of the truffle and its markets, conservation and cooking preparation techniques.

Visit and Tasting

We will visit the cellar and vineyard, story of the company's history and wine production.

With the experience:
Fresh egg pasta (tagliolino) with ragù.

And sweet conclusion:
Guided tasting of 5 labels
all served paired with a selection
of cured meats produced by the Estate.

The 5 labels:
- Brut Sparkling
- Piemonte Cortese
- Barbera d'Asti
- Langhe Nebbiolo
- Barbaresco

...we will conclude the day in the Historic Center of Nizza Monferrato, heart of the UNESCO wine zone..
A pleasant stop among historic pastry shops and artisan shops
to bid farewell to the lands of Monferrato.
